

## SENIOR INTERIM MANAGEMENT

SeestattExperts is an organisation of Senior Experts with more than 30 partners and many years of experience in INTERIM MANAGEMENT & CONSULTING.

### We make the difference.

Our senior interim managers have a broad expertise and many years of experience as entrepreneurs or in top management (C-level) of medium and large companies.

They provide "best practice" concepts and methods for finding solutions and implement them operationally.

Together with the client, they bridge vacancies, implement a restructuring/turnaround or help with the realignment of the organisation. Our Senior Interim Managers take a leading role as well as complete responsibility for the implementation of the project.

### Our partners are our experts.

We provide senior interim managers from our own team - for a limited period of time.
